Panel assembly and finishing:

With RSF, measure 17" in from top right hand corner and mark with locking stitch marker on both panels. Leaving one panel lengthwise on your work surface, turn second panel ninety degrees counter-clockwise and line up short (17") edge between locking stitch marker and top right hand corner of panel on work surface. Sew this seam on wrong side of work. Flip work so that the other panel is now lying lengthwise with RSF on your work surface. Bring short side of the other panel around to line up short (17") edge between locking stitch marker and top right hand corner of panel on work surface. Sew this seam on wrong side of work.

Weave in all ends.
